DIARY NOTES

DD/S

11 January 1972

* * * * *

The following points were covered in Mr. Colby's office on this date:

1. The correlation of training and career development including criteria for the selection of nominees for the second Senior Seminar (see separate Memorandum for the Record dated 11 January 1972, DD/S 72-0128).

2. National Interdepartmental Seminar - A reflect of the letter from Under Secretary Irwin to Mr. Helms. Mr. Colby believes that there should be a correlation between attendees at NIS and the COS Seminar. He is more interested in the NIS as helpful to participation by CIA as members of country teams than in the benefit to the Agency by education of non-Agency attendees by our representatives. Mr. Cunningham, Mr. Fisher, and Mr. Coffey were present.

3. Mr. Cunningham also asked and received an extension for the deadline commenting on Mr. Colby's draft countersubversion paper.

4. I took up privately with Mr. Colby the various points which had been discussed with the Director concerning awards and social events honoring Colonel White. A separate note has been prepared on the social side to facilitate his chat with the Deputies as requested by Mr. Helms.

5. Mr. Colby noted in connection with our topside space worries that he believed the Executive Director's suite and the DCI/Admin space could be squeezed. He particularly noted that DCI/Admin is occupying prime space which could perhaps be better utilized for more senior personnel. He does not believe that the DCI/Admin Officer needs to be on the 7th floor. I told him that we would be asking to brief him on space at an early date and that I understood we had adequate answers to the NIPE requirements.
